## North Carolina Legislature.

### MESSAGE

*Of his Excellency* MONTFORD STOKES, *to the General Assembly of North Carolina.*

GENTLEMEN: The meeting of the representatives of freemen, in all countries where such a system exists, is at all times an interesting spectacle; and when it is considered that they come from their homes—from their fire-sides, and relinquish the comforts of domestic life to attend to their public duties; when they make great sacrifices of time, and of their private concerns, prompted by no other motive than the public good; claiming nor expecting no other reward than that of an approving conscience, it is not an easy task properly to estimate the sum of gratitude which is due from the people to their faithful representatives.
On the present occasion, suffer me to congratulate you upon the appearance of general prosperity in the State, and for the enjoyment of a common share of health by its citizens, at a time when other portions of the world have been visited by a most afflicting malady. For these blessings of health and prosperity, we have reason to be thankful to Almighty God: And it gives us just cause to rely with confidence upon *His* continued mercy in averting the calamities which threaten the peace and harmony of our beloved country. For it is not to be denied nor disguised from ourselves that the measures recommended by an excited portion of the Southern people, if persisted in, must have a tendency to weaken the ties which have heretofore so happily united us together as a nation. Whatever may be the issue of this struggle, I rejoice that the people of North Carolina have wisely avoided any interference calculated to disturb the public tranquility. It is in vain that we look for perfection in any human institutions. An overruling Providence has ordained it to be otherwise. But so far as we have been taught, by the experience of nearly fifty years, under our present form of government, we have had reason to be satisfied with it; and it is hoped that we shall cling to the Union of the States as now connected, without adventuring upon hazardous experiments to change the terms of that connexion.
Having been appointed by the President of the U. States a Commissioner to treat with the Indians and for other purposes, I have thought it my duty to accept the appointment; inasmuch as the peaceable settlement and location of the Indians removing beyond the Mississippi is a matter of great importance to the United States, and not less so to North Carolina, especially as regards the removal of that portion of the Cherokee Nation, now residing within the limits of this State. It is known to many of you that these Indians have for a long time been orderly and peaceable, and their conduct has not made it necessary for the Legislature of North Carolina to extend the laws of the State over the territory they occupy, or in any manner to interfere with their concerns, except for the purposes of protection. They deserve the fostering care of the General Government, and I have no doubt will receive it.
In retiring from the duties of my station, it has been my earnest desire and intention, that no part of the business committed to me by the Legislature should be neglected; and it is believed that my retirement at this time will cause no inconvenience in any department of the government. With this determination, I have devoted my whole time, and exerted my feeble talents in promoting the success of such special objects as the Legislature, by resolutions or otherwise, has directed. Under these circumstances, I have deemed it inexpedient and unnecessary to offer any general recommendations for your consideration, confining myself to the task of rendering you a faithful account of the manner in which I have executed the trusts confided to me.
A resolution of the General Assembly directed that a "contract should be made with Mr. Ball Hughes for the restoration of the Statue of Washington upon the basis of the principles set forth in the report of the joint select committee on that subject."

In obedience to this resolution, a written contract was made with Mr. Hughes, and some time in May last he commenced the undertaking, and, so far as I was able to judge, in a manner conformable to the principles laid down in the report. Being desirous of removing his family and materials to this place, he returned to New York about the first of July, under an express promise to return and prosecute the work in fifteen days.

With a confident reliance upon this promise, and to facilitate the speedy removal of his family, his workmen and materials, a sum of money was advanced, perhaps beyond the portion of labor done according to the terms of the contract. Of this, however, I confess myself not a competent judge. The whole sum advanced to Mr. Hughes amounts to two thousand eight hundred dollars. Mr. Hughes finding (as I understand from him) that sickness prevailed to an alarming extent in New York, he removed with his family to New Jersey, and has not returned to North Carolina. He has since requested that the moulds and casts for the repair of the statue should be forwarded to New York, where he intended to prosecute the work. I thought proper to forbid the removal of any thing pertaining to the Statue, as the contract requires that the repairs shall be made at Raleigh The contract, together with the letter of Mr. Hughes, is herewith submitted.

A resolution of the General Assembly directs that "all the maps, drafts and plans lately in the possession of the Engineer of this State shall be placed in the Executive Office, and that they be repaired at the expense of the State, and be kept under the direction of the Governor, subject to the further disposition of the General Assembly." This duty has been performed, and the maps, drafts, and plans have been repaired, and are securely deposited in the Executive Office.

The resolution directing the "employment of an agent to arrange in proper order all the papers belonging to the Senate and House of Commons and others, which were saved during the conflagration of the State House, and that they be delivered to the proper officers of the State," has been complied with, so far as the assorting and arrangement; but owing to the want of sufficient cases and shelves in the Government House, to hold the papers belonging to the Senate and House of Commons, they have been carefully labelled and filed in a room in the office of the Secretary of State, subject to such disposition as the General Assembly may hereafter make. This arrangement was a laborious one, and has been faithfully performed by my Private Secretary, Mr. Wm. R. Hill, the former Librarian of the State.

The Acts of Assembly establishing Rail Roads, have been attended to. Considerable difficulty and delay occurred in procuring an Engineer to make the surveys required. The services of Mr. Rawle, of Pennsylvania, were at last obtained; and he has been engaged in the survey of both routes; which, it is hoped, will prove satisfactory. As soon as the surveys are completed, a particular report on that subject, as well as other objects which engaged the attention of the Board of Internal Improvements, will be laid before you by the remaining members of the Board.

Pursuant to the resolution directing "the Dredging Machine belonging to the State to be secured in such manner as to preserve it from ruin," I gave directions for Captain Blaney, in whose possession it was, to deliver it to Gen. Edward B. Dudley, of Wilmington, for the purpose of having it secured. On examination, it was found that the vessel containing the machine was so much decayed as to be unfit for use; that the machine itself was greatly injured; and that it would cost the State a considerable sum of money to have it taken to pieces and stored in safety.—In the opinion of many persons, the cost would be more than the machine was worth. Under these circumstances, I have directed it to be delivered to the Cape Fear Navigation Company, in which the State is much interested, and their agent has engaged that it shall be taken care of.

The resolution directing the appointment of some "intelligent person to act on the part of the State in collecting testimony, and causing such surveys as may be necessary to the just prosecution of the suit pending in the Supreme Court, in the name of the Attorney General," for vacating certain grants made by this State," has been attended to; and I have appointed for this purpose, Thomas Dews, Esquire, of Rutherford, in whose integrity and capacity I have the most perfect reliance.

With respect to the resolution in favor of the sisters of the full blood of James N. Forsythe, I have felt myself somewhat at a loss how to proceed. No claim has been made for the money, nor do I know where the family reside. I have not made the transfer of the shares to the State as directed by the resolution, inasmuch as in my absence, there was no person authorised to receive and pay away the money appropriated for the said four shares. I have therefore left the shares as they were, and have deposited in the State Bank the money placed in my hands as guardian ex-officio of Jas. N. Forsythe, amounting to one hundred and seventy-four dollars and fifty cents. This money is subject to the draft of my successor in office. The certificate of stock of the shares is left in the hands of the Public Treasurer.

The resolution requiring the Governor to "appoint some person resident in the city of Raleigh, who shall correspond with different persons in this State for the purpose of procuring copies of the Acts and Journals of the General Assembly" to replace those destroyed by the burning of the State House and Public Library, has been attended to; and Mr. Joseph Gales, of Raleigh, has been appointed for that purpose.

The progress he has made in performing the duty required, shows that the business could not have been placed in better hands.

The resolution requiring the "Governor to make application to the proper authorities of the United States for as many pistols and sabres as may be necessary to supply such troops of cavalry as are now organized, or are about to be organized within this State," has been complied with, and one thousand pair of pistols, and five hundred sabres have been received from the United States, as part of this State's quota of public arms. They have been partly distributed agreeably to the law on that subject, and the remainder are in the Arsenal at Fayetteville.

In obedience to the resolution directing the 'Mathematical instruments belonging to the State, and formerly attached to the Engineer's Department, to be collected and placed under the care of D. H. Bingham, of the city of Raleigh, an order was issued to that effect, and many of the instruments are now in the hands of Mr. Bingham. It is to be regretted that they were much injured before they came into his possession, and some of them rendered unfit for use without repairs. A list of those collected is herewith furnished.

Since the adjournment of the Legislature, I have received from the Secretary of State of the U. States a number of copies of the acts of the second session of the twenty first Congress, which are in the Executive Office subject to your order for their distribution. I have also received from the same source, three copies of the fifth Census, or enumeration of the inhabitants of the United States, taken in 1830, to which is prefixed a schedule of the whole number of persons within the several districts of the U. States, taken according to the acts of Congress of 1790, 1800, 1810, and 1820.' One for the Executive Office, and one for each House of the General Assembly. This is a valuable document, and will be delivered to you by my Private Secretary, with this message.

An elegant Map and Atlas, with statistical views of the State of Maine, has, by the direction of the Legislature of that state, been presented to the state of North Carolina; and I beg leave to recommend that a similar donation be made in return, as soon as the new map of this State is completed.

I have received communications from the Governors and Legislatures of several states, which I am requested to lay before you. Those from Massachusetts, relate to the unsettled question of the north eastern boundary of the United States. Those from Tennessee, relate of the subject of the public lands of the United States, and to the powers of the General Government to make appropriation for Internal Improvements, and approving the conduct of the President, in placing his veto on the Lexington and Maysville Turnpike Road Bill. Those from Louisiana, relate to the establishment of a Rail Road from New Orleans, to pass through the States of Louisiana, Mississippi, Tennessee, Alabama, North Carolina, and Virginia, to the City of Washington.

The resignations of Militia Officers and Justices of the Peace, received since the adjournment of the General Assembly, are laid before you in the file marked A.

In this last act of my political relations with the State of North Carolina, I should be ungrateful in withholding the expression of my unfeigned thanks for the many testimonies of confidence and support which I have received from the Legislature and from the people, in the course of a public life of forty-seven years spent in their service in various stations; in all of which I have received the most unequivocal proofs of their indulgence.

I have the honor to be, Gentlemen,
Your obedient servant,
MONTFORT STOKES.

EXECUTIVE OFFICE, *North Carolina, November 19th*, 1832.

## IN SENATE.

*Monday, Nov.* 19, 1832.

This being the day appointed by law for the meeting of the General Assembly, and fifty-eight of the Members of the Senate appearing, that body proceeded to the qualification of its members.

On motion of Mr. Williams, the Senate proceeded to ballot for their presiding Officer. Mr. W. suggested the propriety of balloting without making any regular nomination. By this course, the preference of Members would be ascertained, whilst no person voted for would experience any mortification at defeat. This arrangement having been agreed to, two ballotings were had, which resulted as follows:

| | 1st. | 2d. |
|---|---|---|
| W. D. Mosely | 29 | 41 |
| H. Seawell | 8 | 4 |
| L. D. Wilson | 5 | 3 |
| W. F. Leake | 5 | 1 |
| J. Wellborn | 4 | 3 |
| Scattering and blank | 7 | 6 |

Mr. Mosely having received a majority of the whole number of votes given in, was conducted to the Chair by Mr. Montgomery, of Orange, from whence he returned his thanks in a neat and pertinent Address.

On motion of Mr. Matthews, Samuel F. Patterson, of Wilkes, was appointed Principal Clerk, and William J. Cowan, of Bladen, Clerk Assistant.

On motion of Mr. Vanhook, Thomas B. Wheeler was appointed Principal Door-keeper, and Green Hill, Assistant Door-keeper.

On motion of Mr. Montgomery, of Hertford, a Message was sent to the House of Commons, informing them of the organization of the Senate and of their readiness to proceed to the despatch of public business; and then the Senate adjourned.

*Tuesday, Nov.* 20.

Messrs. Spaight, Toomer, Seawell, Wilson and Bailey were appointed a Committee to prepare Rules of Order, for the government of the Senate during the present Session.

Received from the House of Commons a Message proposing that a Joint Select Committee be appointed to wait on his Excellency the Governor and inform him of the organization of the Legislature, and of its readiness to receive any Communication he may think proper to make, and stating that Messrs. McLeod and Shepard are appointed to form the Committee on the part of that House, which proposition was agreed to by the Senate, and a Message sent to the House of Commons informing them thereof, and stating that Messrs. Williams and Hoke are appointed to form the Committee on the part of the Senate. Mr. Williams from that Committee, reported, that the Committee was authorised to state that his Excellency would make a written Communication to the Legislature to-morrow at 12 o'clock.

*Wednesday, Nov.* 21.

Mr. Parker presented the petition of Henry Humphreys, of the county of Guilford, praying the Legislature to pass an act exempting from taxation for the term of fifteen years, a Cotton Factory, with the slaves therein employed, together with the lands and appurtenances thereto belonging, situated in Greensborough; which was read and referred to a select committee, consisting of Messrs. Parker, Wellborn, Matthews, Skinner and Vanhook.

Mr. Spaight from the select committee, appointed for the purpose, reported Rules of Order for the government of the Senate, which were adopted.

## HOUSE OF COMMONS.

*Monday, Nov.* 19, 1832.

A quorum of the members of this House appearing, they proceeded after being qualified, to the selection of their officers.

Louis D. Henry, Esq. of Fayetteville, was nominated for Speaker by Mr. McMillan, of Bladen, and the name of Samuel T. Sawyer, Esq. of Edenton, was added to the nomination, by Mr. Gwynn, of Caswell. A balloting took place which resulted in the choice of Mr. Henry, by the following vote: Henry 69, Sawyer 52, blank 3. Mr. Henry was conducted to the Chair by Mr. McMillan, from whence he made his acknowledgments to the House.

On motion of Mr. Clayton, Charles Manly, of Raleigh, was appointed Principal Clerk, and Edmund B. Freeman, of Halifax, Clerk Assistant.

On motion, Richard Roberts of Raleigh, was appointed Principal Door-keeper.

The House proceeded to ballot for Assistant Door keeper, nine persons being in nomination. On the first ballot, neither of the candidates had a majority.

## FOREIGN.

*New York, November* 19.

LATER FROM EUROPE.—The packet ship *President*, from London, furnishes papers from that place to 16th ult., ten days later than before received.

The Belgian question seems likely, after all, to require the interposition of actual force for its solution. Accordingly, a combined fleet of France and England is to rendezvous at Spithead, in order to proceed to blockade the Scheldt, and, we presume, the coast of Holland also;—that is to say, if the exhibition of a force in readiness to do so, should not have the effect of subduing King William. It may be, that he has committed himself so strongly before the nation not to yield to any thing but actual and superior force, that nothing short of such a force being prepared to coerce him, would justify him in the eyes of his people in giving up. On the other hand, it is possible that the Northern Powers are resolved to sustain Holland, at all events; though with France and England combined against them, we must doubt their venturing upon war.

The London Courier of the 13th, announces positively that orders had been given for the sailing of a British fleet to the Scheldt.

In France, contrary to our expectation, the new Ministry has been formed with a soldier at its head, *Marshal Soult.*

Another attempt was made on 29th September on Oporto. It was Michaelmas, or St. Michael's day, and the Miguelites took the day of his patron saint, as that on which they would endeavor to humble and subdue his enemies; but they were foiled with great loss. In other respects affairs remain as before.

LIVERPOOL, OCT. 13.—*Cotton.*—The demand for all descriptions of Cotton has again been upon a limited scale, having been confined chiefly to the wants of the trade. Prices, however, have been fully supported; indeed, the low qualities of American Cotton have regained the slight decline noticed in our last. The sales of the week, including 800 American on speculation, amount to 10,580 bags. Import 12,440 To-day there has been a fair demand: sales estimated at 3,000—2,500 of which being of American description, at 6¾ @ 8d.

*From the Norfolk Beacon.*

INTERESTING FROM LIBERIA.—A friend of our coloured emigrants, to whom it was addressed, has handed us a letter received by him (per brig Liberia at Philadelphia,) from one of the colonists, his cousin, dated 29th of September, 1832, which is quite interesting in its character, and we accordingly give the following substance of its contents, very nearly in his own language:

"We are well situated and doing well. The spirit of improvement seems daily to increase in our town, which is spreading fast. Our Commerce is getting so extensive, that our merchants are building large warehouses—three are erecting at this time, one of which is of stone, 100 feet long. Not a week passes but we have one or more arrivals in our harbour. I have had the pleasure of seeing, and conversing freely with Wm. Sanders, the great African Traveller, one of the agents in the Expedition fitted out by some English merchants to explore the river Niger. He gave me much very interesting information, respecting the interior of this country; he says, about five hundred miles back, there is one of the healthiest countries in the world, entirely exempt from those Bogs which affect so injuriously the health of those near the sea coast; that no dew falls there, and the soil produces every luxury of vegetation.

"Your friends here are all well, and *Cheeseman* is doing a good business—in fact, any person *who will be industrious, can live much better in Africa than in the United States.*"

MCARTHUR ELECTED.—The Beaver (Ohio) Argus says that General McArthur, the Clay candidate for Congress in the Fifth District, has been elected, instead of Allen, the Jackson candidate, as before reported, there having been an error of one hundred votes in the unofficial returns.

*Buffalo Journal—Extra, Thursday, Nov.* 15.

CONFLAGRATION!—A large portion of the city of Buffalo is now a mass of smoking ruins. The greatest fire ever known to our inhabitants since the town was burnt by the British, occurred last night. About 8 o'clock, in the evening, the two story wooden building, near the Exchange Buildings, on Main street, unoccupied and locked, was discovered to be on fire, and the whole block from the Exchange Buildings to Seneca street through to Pearl inclusive, was consumed with astonishing rapidity.

From the west, the fire was communicated to the east side of Main street, the north side of Seneca on the west of Main and to the Buffalo House, north east corner of Main, and Seneca, and for a time the whole city was threatened with destruction, but a fortunate change of the wind, and the new and fire proof wall of Mr. Enfer on the one corner, and the power of the engines upon the other checked it on the north side of Seneca street with little damage, and it spent its fury upon the block below, and a part of the adjoining block on the east side of Washington street.

Property to the amount of 150,000 dollars is destroyed, and scenes of distress better imagined than described, follow in its train.

In addition to the estimate we have made, there is a great waste of property by removals from stores and dwellings which were threatened, and the depredations of plunderers are almost incredible. Our jail is filled with them, and more are under examination before the justices.

There is no doubt but it is the work of an incendiary, and it is remarkable that this calamity has occurred on the anniversary of the great fire three years ago.

IMPORTANT INDIAN TREATY.—We learn from the Liberty (Indiana) Port Folio, of the 10th inst., that the Commissioners appointed for the purpose, have effected a treaty with the Pottawatomie Indians, by which the Indians cede to the U. States all the lands lying in Indiana, and all South of the Grand River, in Michigan, and all East of the River La Plein, in Illinois, with the exception of a few very small reservations. The whole tract contains between 6 and 7 millions of acres, and is represented to be of an excellent quality of land. We are told, says the Port Folio, that the treaty was obtained on terms liberal to the Government, but we have not learned the entire conditions.

CAPE DE VERDS.—By an arrival at Hampton Roads, we have confirmation of the reports of suffering at the Cape De Verd Islands.—Within a few months *two hundred human beings had died with* HUNGER in Brava and Toga; and they have "sorrow upon sorrow." It is known that a vessel loaded with provisions, sent from Boston for these sufferers, was compelled to put into New York;—and a vessel on the same errand, despatched from Liston—she was run over in the night and sunk.

CAPE DE VERDS.—It is estimated that the total amount of subscriptions in the U. States for the relief of the famishing inhabitants of the Cape de Verd Islands will amount to about $35,000.

Among the eminent men who have died during the present year, we may mention Charles Carroll of Carrollton, Sir Walter Scott, Sir James McIntosh, Crabbe the poet, Munden the actor, Doctor Spurzheim, the phrenologist, Clementini, the celebrated pianist and composer, Goethe the German author; Casimer Perier, Prime Minister of France, Young Napoleon, and Champollion, the Egyptian Antiquary.

An order has been issued by the Secretary of War, directing that hereafter no ardent spirits shall be issued to the U. S. troops as a component part of the ration, nor shall any commutation in money therefor be paid to them and that no ardent spirits shall be introduced into any fort, camp, garrison, nor sold by any sutler to the troops, nor shall any permit be granted for the purchase of ardent spirits. As a substitute for the ardent spirits, eight lbs. of sugar and four pounds of coffee will be allowed.

REPORTING SPEECHES AT WASHINGTON.—The Washington Telegraph says—"We have contracted for a press, capable of printing a sheet twice the size of our daily paper, and have engaged a sufficient number of competent reporters to enable us to give the entire debates in each House. The reporters will relieve each other at short intervals—the speeches will be written out as delivered, and immediately handed over to the compositor; so that each speech will be in "type in a few minutes after it shall have been delivered."

CHARLESTON RAIL ROAD INTELLIGENCE.

Arrived for the week ending 18th inst. 308 passengers. Departed do 321 do

Total receipts for freight and passengers, upwards of $400.

The quantity of Corn and Hay will be published every quarter, that is transported for the use of that part of the country now drawing their supplies from Town.

In the downward freight a part of the crop of the Hon. Jos. Kogee, Jr. was conveyed 50 miles on the Rail Road, being placed at half past 4 A. M. on the Car, which landed it at 3 P. M. on the same day.

As a mark of respect to the memory of Charles Carroll, of Carrollton, the President of the United States, on being apprized of his death, directed that all the public offices at Washington should be closed.

Mr. Rives, our esteemed Minister to the Court of France, and his family, arrived at New York last week, in the packet ship Sully, from Havre.

It is stated in letters from Paris, dated the 9th ult. that Gen. Lafayette looked then as well as he did ten years before. He no longer visited the royal palace.

COMMERCE OF NEW YORK.—During the month of October, there arrived at the port of New York 658 vessels.

MARYLAND.—The Electoral vote is ascertained to be, 7 for Clay, 3 for Jackson.

NEW HAMPSHIRE.—*Official.*—Jackson majority 5,442.

PENNSYLVANIA.—The Official Statement makes the majority for the Jackson Ticket 24,570.

INDIANA.—The administration papers claim a majority in 51 counties of Indiana, 5335 votes in favor of the Jackson Electoral Ticket.

OHIO.—The official returns of the Presidential Election in Ohio show the precise majority for the Jackson ticket to be 4704 votes.

DELAWARE.—The following letter from a friend in Delaware shews the result of the election in that State:—*Nat. Int.*

*November 6.*

GENTLEMEN: On Tuesday, the 13th, the Election took place in Delaware. The Clay Electors (Comegys, Truit and Hall) were all elected. Also, Mr. Milligan, the present National Republican Representative of the State in Congress was re-elected.—The Legislature elected stands more than two to one for Clay. The Jackson Governor (Bennett) succeeded by a lean majority of fifty votes, having been supported by the Anti-Masons.

Cotton is selling here at $10 50 to $10 75. The arrivals are large, we understand, for the season; and business, generally, is brisk and improving.

Congress will meet on Monday next. There being no Speaker to elect at this Session, the members from the South are not hastening on so early as usual. Among the few who have gone on, we notice the Hon. Lauchlin Bethune, the Representative of this District.

The State Bank of North Carolina has declared a dividend of 2 per cent for the last six months.

It will be recollected, that the act of 1829, extending the time allowed the Banks in this State to wind up, gives them permission, on the 1st of January next, and at such after periods as they may fix upon, to declare dividends of their Capital Stock. We have always regarded this as one of the most valuable privileges of that act; since it anticipates, by two years, the period at which, by the original charters, they would refund to the Stockholders, a large amount of idle capital, now locked up in their vaults, perfectly useless to the Banks, to the Stockholders, and to the public. Whilst the Banks are constantly withdrawing their notes and curtailing their business, this dead capital will constantly and rapidly accumulate. It is known that it *has* accumulated, largely. It is therefore with considerable interest, we believe, that the public look forward to the day when their dividends may lawfully be made. A large amount will be added to the trading capital of the people, to be invested in a thousand useful modes; and it may be expected that not only will the value of almost all species of property be in some degree appreciated, but that the means will be afforded of extinguishing much of existing debt.—The State, too, which is a very large Stockholder, will be materially benefitted, since it has not now available funds sufficient to meet the current expenses. In every point of view, it appears to us important, that the privilege should be used to the extent of the means of these institutions, and we greatly mistake the wishes and interests of the public, if it is not looked for as a measure of sound policy as well as of sheer justice.

COUNTERFEITS.—The following is an extract from a letter to the Editor, dated

"ROCKINGHAM, RICHMOND COUNTY, Nov. 24.

"Whilst I am writing I would suggest whether it might not be well for you to caution the community against a couple of counterfeiters who were in this place a few days ago. They met at the Hotel of Mr. Love on Tuesday night last as entire strangers to each other, one representing that he was going to Carthage Hill, the other to Raleigh. On the next morning the latter one passed off a counterfeit $5 to Mr. Love and proceeded to Graham's Bridge, where he put off a $20 bill, having passed off another bill at Mr. Gibson's between those places. The former also passed a $10 bill to one of our merchants and proceeded in the direction of Cheraw, crossing the river at Hailey's Ferry. A company from this place made immediate pursuit after the last mentioned fellow, and followed him into Anson County, where he eluded them by making an abrupt tack immediately up the river, and recrossing into this county about 20 miles higher up. Travelling eastwardly across the upper part of the county, he succeeded in passing some 50 or 60 dollars more of his spurious bills upon some of our unsuspecting citizens; and pursuing his course once more towards our village, came within 5 or 6 miles of us when he passed off one more to a wagoner, and turned again to the westward. Our citizens again hearing of him, made up a second company, who, after pursuing him one day and two nights, succeeded in capturing him in Robeson county,—but, unfortunately, on their way down with him, at Mr. Gilchrist's in the lower end of this county, where the company stopped for the purpose of spending the remaining part of the night, the fellow broke from them, and escaped with all the money. He went off without hat or shoes. Yesterday the company returned, bringing with them the horse, saddle and saddle bags, cloak, hat and shoes. Notwithstanding the fox-like dodgings of this crafty gentleman, he was not aware that any persons were in pursuit of him until he was seized in his bed. The fellow is under the ordinary size, about 5 feet 7 inches high, and is quite a young man. One or two of his front upper teeth are out. He had on when he escaped snuff-colored pantaloons and a mixed homespun coat.

The other fellow was pursued by Mr. Graham, who had not returned home at the time of our last news from the Bridge. He is described to be from 30 to 35 years of age, about the height of the other one, though somewhat heavier, with dark whiskers recently turned out, a mole on his cheek in the front edge of one of his whiskers, and a very sharp-pointed nose. He was dressed in black broad cloth, and rode a sorrel horse, with a yellow sheep skin over his saddle. I have now before me one of the twenty, and one of the ten dollar bills which these fellows put off in this County. The tens purport to have been issued from the Norfolk Branch of the U. S. Bank, and are signed by Jos. L. Roberts as Cash'r, and Geo. Newton as Pres't, and made payable to T. S. Robertson. Both of the bills are marked with the letter I, and one of them dated 9th June, 1827, the other 9th July, 1828. The twenty is marked with the letter G, payable to J. Harper, dated 4th June, 1827, and signed by Wm. McIlvaine, Cash'r, and N. Biddle, Pres't, with the office of Discount and Deposite in Bank. The coloring of the vignette is quite pale, and the whole execution bad."

DREADFUL ACCIDENT.—We understand, that Mr. Jas. A. Berry, of Smithville, N. C. whilst gunning, a few days ago, in company with a friend, accidentally shot himself through the hand and head, and expired almost immediately. He has left a wife and five young children.

The Raleigh Register expresses the opinion decidedly, that the present Legislature will not accede to the proposition for a Southern Convention, which it is expected will be urged upon them by Messrs. Poinsett and Hugar, the Delegates appointed by the South Carolina Union Convention to attend at Raleigh for that purpose.

A Steam Packet has been built at New York, to ply between that City and Charleston, S. C. She made her first passage in 4 days, and it is expected that not more than 70 hours will usually be required for the passage. The furnaces are fed with Coal.

The Hon. Phillip Doddridge, one of the most talented of the Virginia Delegation in Congress, died suddenly at Washington City on the 19th instant.

John Randolph and Wm. S. Archer are nominated in the Richmond Enquirer, to succeed Mr. Tazewell in the U. S. Senate.

The vacancy in the Virginia delegation in Congress, occasioned by the death of Mr. C. C. Johnson, has been supplied by the election of Mr. Jos. Draper, the predecessor of Mr. J.

GEORGIA.—Nearly half the members of the Anti-Tariff Convention, with Mr. Forsyth at their head, have vacated their seats, in consequence of the rejection of a resolution offered by Mr. F. that a committee be appointed to inquire into the mode by which the Delegates were elected, the number of votes each received, &c. About 70 members remained.

A committee of the Legislature has been appointed to proceed to Macon, for the purpose of making a thorough examination of the affairs and cause of the failure of the Macon Bank.

A bill to repeal an act granting $6,000 per annum to Franklin College, has been rejected by a majority of 12 votes.

A proposition is before the Legislature, to invite the States of North and South Carolina, Alabama, Virginia, Tennessee, and Mississippi, to join the State of Georgia, in a Convention, to consider the subject of the Tariff, and devise the most effectual and proper mode of obtaining relief from it. The Convention to be held in case five of the six States agree to unite in it.

LEGISLATION.—A bill has been introduced into the Legislature of Georgia against the President and Directors of future failing Banks comprising a penalty of "thirty nine lashes on their naked backs, and imprisonment at the discretion of the Court."

In looking over the proceedings of the Georgia Legislature, we were struck with the following, among the notices of bills brought in:

"Mr. Haynes—An act declaring it a high misdemeanor for any Attorney, Solicitor, or Counsellor to appear in any Court in this State, in behalf of any Cherokee Indian, or descendant of a Cherokee Indian, or of any white person, in any cause, motion, or petition, calling in question the State's right of Jurisdiction over that portion of her territoay in the occupancy of the Cherokee Indians, or who shall make any motion, or in any manner attempt to enforce the late decision of the Supreme Court in the case of Worcester and Butler against the State of Georgia—and to provide for the punishment of the same."

It would seem from the above, that State rights are likely to be sustained upon high grounds in Georgia.

FINANCES OF NORTH CAROLINA.—As usual, we find the Annual Treasurer's Report too long for publication entire in our paper; indeed, it is not necessary to a full understanding of the subject, to follow the Treasurer through all the precise statements which his duty requires him to make to the "assembled wisdom."—For the convenience of our readers, therefore, we make the following abstract:

The Treasurer states that there are now lying in the Treasury, to be burnt at the present session, $16,547 10¾, in worn out Treasury notes; so that instead of a surplus of $7,924 73¾ in the Treasury, there is a *deficiency* of *available* funds of $8,622 37. He earnestly recommends that provision be made for meeting the demands upon the Treasury without resorting, as heretofore, to the Literary Fund, which is now held in the Treasury for that purpose, and therefore cannot be so invested as to yield interest. Upon this subject he makes the following excellent suggestion:

"It is believed that this difficulty may be met, in a great degree, if not entirely, by a proper revision and enforcement of the laws regulating the assessment of lands in this State, without resorting to the imposition of new or increased taxes. Such a measure by preventing the numerous frauds and evasions practised by individuals under the present system of assessing lands for taxation, would, in all probability, increase the revenue to the desired amount; and so give the Legislature a control over the investments of the State, when thrown upon their hands, and enable them, with advantage, to re-invest in works of Internal Improvement; to make provision for the increase of the Common School Fund; or to direct such other expenditures, as, in the exercise of a wise legislation, may be deemed conducive to the moral or physical improvement of the community."

In relation to the expected Bank Dividends, the Treasurer says—

"The time will arrive before the expiration of the present session of the General Assembly, when, according to the provisions of the amended charters of 1829, the banks of this State are permitted to divide portions of their capital. The situation of these institutions warrants the expectation, that large dividends of capital will be made as early as the terms of the charters will permit. Under these circumstances, it is respectfully suggested, whether some legislation on the subject of the future disposition of the money, may not be expedient."

TREASURY NOTES.—The amount of ragged bills returned upon the Treasury for redemption, has gone on increasing regularly each year until it reached, last year, the sum of $29,811 77. We are glad to find by the Treasurer's Report, that the amount this year is only $16,547 10¾, a gratifying assurance that they are becoming scarce.

Large quantities of Cotton were arriving daily at New Orleans at the last dates, but in consequence of the sickness, it was generally stored, for want of purchasers.

At Augusta, Geo., prices had declined a little. Average price $10 75; very good to prime, $11 to $11 50.

SOUTH CAROLINA.—The Convention was organized on the 19th, by the election of Gov. Hamilton President, without opposition, and Isaac W. Hayne Clerk. The whole number of Delegates is 169, of whom 143 are Nullifiers, and 26 Union men.

After the organization, Judge Colcock moved to refer the act calling the Convention, and the whole subject on which it has assembled, to a select committee of 21 members, which was agreed to. The Committee consists of

Judge C. J. Colcock, Gen. J. B. Earle, Judge W. Harper, Judge John B. O'Neale, Hon. R. Y. Hayne, Hon. J. K. Griffin, Benjamin Rogers, James R Erwin, Col. Jacob Bond I'On, Pierce M. Butler, Col. Wm. C. Pinckney, Hon. Stephen D. Miller, Judge J. Johnston, Hon. George McDuffie, Henry Middleton, Robt. J. Turnbull, Esq, Hon. Robt. W. Barnwell, Col. Rich'd J. Manning, T. D. Singleton, Sen., James A. Black, John Bausket.

On Tuesday, Mr. Turnbull suggested that the Committee was too large for the despatch of business, and moved the appointment of a Sub-Committee to prepare an Ordinance declaring the Tariff Act null and void; an Address of this Convention to the People of the State; an Address to the People of the United States, and an Exposition of the proceedings of this State. The Resolution was adopted, and the following gentlemen appointed by the Chair:

Messrs. Harper, Hayne, McDuffie, I'On, Pinckney, Johnston and Colcock.

It is understood that Gen. Hayne was deputed to prepare the Exposition; Mr. Turnbull the Address to the State; Mr. McDuffie that to the United States; Judge Harper the Ordinance itself.

The following is the only one of these papers that has yet come to hand:

AN ORDINANCE,

*To provide for the arresting the operation of certain Acts of the Congress of the United States, purporting to be Laws laying Duties and Imposts on the Importation of Foreign Commodities*

WHEREAS, the Congress of the United States, by various acts, purporting to be acts laying duties and imposts on foreign imports, but in reality intended for the protection of domestic manufactures, and the giving of bounties to classes and individuals engaged in particular employments, at the expense and to the injury and oppression of other individuals, and by wholly exempting from taxation, certain foreign commodities, such as are not produced or manufactured in the United States, to afford a pretext for imposing higher and excessive duties on articles similar to those intended to be protected; hath exceeded its just powers under the Constitution, which confers on it no authority to afford such protection, and hath violated the true meaning and intent of the Constitution, which provides for equality in imposing the burdens of taxation upon the several States and portions of the Confederacy;—And, Whereas, the said Congress, exceeding its just power to impose taxes and collect revenue for the purpose of effecting and accomplishing the specific objects and purposes which the Constitution of the United States authorizes it to effect and accomplish, hath raised and collected unnecessary revenue, for objects unauthorized by the Constitution.

We, therefore, the people of the State of South Carolina in Convention assembled, do declare and ordain, and it is hereby declared and ordained, that the several acts and parts of acts of the Congress of the United States, purporting to be laws for the imposing of duties and imposts on the importation of foreign commodities, and now having actual operation and effect within the U. States, and more especially an act entitled "an act in alteration of the several acts imposing duties on imports," approved on the nineteenth day of May, one thousand eight hundred and twenty-eight, and also an act entitled "an act to alter and amend the several acts imposing duties on imports," approved on the fourteenth day of July, one thousand eight hundred and thirty-two, are unauthorized by the Constitution of the U. States, and violate the true meaning and intent thereof, and are null, void, and no law, nor binding upon this State, its officers or citizens; and all promises, contracts and obligations made or entered into or to be made or entered into with purpose to secure the duties imposed by said acts, and all judicial proceedings which shall hereafter be had in affirmance thereof, are and shall be held utterly null and void.

*And it is further ordained*, That it shall not be lawful for any of the constituted authorities, whether of this State or of the United States, to enforce the payment of duties imposed by the said acts within the limits of this State; but that it shall be the duty of the Legislature to adopt such measures and pass such acts as may be necessary to give full effect to this Ordinance, and to prevent the enforcement, and arrest the operation of the said acts and parts of acts of the Congress of the United States, within the limits of this State, from and after the first day of February next, and the duty of all other constituted authorities, and of all persons residing or being within the limits of this State, and they are hereby required and enjoined to obey and give effect to this ordinance and such acts and measures of the Legislature as may be passed or adopted in obedience thereto:

*And it is further ordained*, That in no case of law or Equity, decided in the Courts of this State, wherein shall be drawn in question the authority of this Ordinance, or the validity of such act or acts of the Legislature as may be passed for the purpose of giving effect thereto, or the validity of the aforesaid acts of Congress, imposing duties, shall any appeal be taken or allowed to the Supreme Court of the U. States; nor shall any copy of the record be permitted or allowed for that purpose, and if any such appeal shall be attempted to be taken, the Courts of this State shall proceed to execute and enforce their judgments, according to the laws and usages of this State, without reference to such attempted appeals; and the person or persons attempting to take such appeal may be dealt with as for a contempt of the Court.

*And it is further ordained*, That all persons now holding any office of honor, profit, or trust, civil or military, under this State, shall, within such time, and in such manner as the Legislature shall prescribe, take an oath, well and truly to obey, execute, and enforce this Ordinance, and such act or acts of the Legislature, as may be passed in pursuance thereof, according to the true intent and meaning of the same; and on the neglect or omission of such person or persons so to do, his or their office or offices, shall be forthwith vacated, and shall be filled up, as if such person or persons were dead, or had resigned; and no person hereafter elected to any office of honor, profit, or trust, civil or military, shall, until the Legislature shall otherwise provide and direct, enter on the execution of his office, or be in any respect competent to discharge the duties thereof, until he shall, in like manner, have taken a similar oath; and no juror shall be impannelled in any of the Courts of this State, in any cause in which shall be in question this Ordinance, or any act of the Legislature, passed in pursuance thereof, unless he shall first, in addition to the usual oath, have taken an oath, that he will well and truly obey, execute, and enforce this Ordinance, and such act or acts of the Legislature, as may be passed to carry the same into operation and effect, according to the true intent and meaning of the same.

And we, the people of South Carolina, to the end, that it may be fully understood by the Government of the United States, and the people of the co-States, that we are determined to maintain this, our ordinance and declaration, at every hazard, do further declare, that we will not submit to the application of force, on the part of the Federal Government, to reduce this State to obedience; but that we will consider the passage, by Congress, of any act, authorizing the employment of a military or naval force against the State of South Carolina, her constituted authorities or citizens; or any act, abolishing or closing the ports of this State, or any of them, or otherwise obstructing the free ingress and egress of vessels, to and from the said ports; or any other act on the part of the Federal Government, to coerce the State, shut up her ports, destroy or harrass her commerce, or to enforce the acts hereby declared to be null and void, otherwise than through the civil tribunals of the country, as inconsistent with the longer continuance of South Carolina in the Union: and that the people of this State will thenceforth hold themselves absolved from all further obligation to maintain or preserve their political connexion with the people of the other States, and will forthwith proceed to organize a separate Government, and do all other acts and things, which sovereign and independent States may of right do.

We understand, verbally, that the above Ordinance was adopted by the Convention, which no doubt adjourned on Saturday last. Our readers will, with us, deeply deplore the delusion which has arrayed the State in such an attitude of hostility to the laws of the Union, and join us in earnest wishes that things may yet be so peaceably ordered as to prevent the dreaded catastrophe.

We have understood that the U. S. Bank has been taking steps to close at as early a day as possible, its Branch in the city of Charleston. It is also said that many of the citizens of Charleston are about to remove to other States, some of whom will no doubt settle in our quiet State, where they will be free from the danger of Nullification, or Disunion.

Brig. Gen. WINFIELD SCOTT, of the U. S. Army, passed through this place on Friday last, on his way to Charleston, S. C. We presume that he is merely on his regular tour of inspection of the Southern posts.

The Globe of Saturday denies that there is any foundation for the report that "the President is taking measures to blockade the port of Charleston by revenue cutters, and is marching troops to make war upon the Nullifiers."

The number of interments at New Orleans on the 11th instant, was only 55.

*New Orleans, Nov.* 12.—The health of our city continues to advance. On Saturday morning there was a white frost. We repeat, that strangers may now visit us in safety.

FINE CABBAGES.—We were presented a few days since, with two Cabbages, the average weight of each of which was more than 30lbs. They were raised by Wm. T. Robertson, Esq. of Eagle Rock, in this County.

*Ral. Reg.*

The mildness of the present Fall in this part of the Country, has produced a second growth of Apples and other fruit. A few days ago was handed to us by Mr. David Sauls, of Chatham, a full grown Apple of this growth, from the plantation of Fanning Jones, late of this County, where there were hundreds of the same kind. On opening that Apple it was found to contain no seed.—*Ral. Reg.*

NATURAL CURIOSITY.—We have this morning been shown, by Mr. Grant Thorburn, one of the most striking natural curiosities that we ever saw. It is a turnip raised in Minden, Conn., which resembles a man's hand so closely as to startle the beholder as it is unrolled from the paper in which it is wrapped. The fingers are nearly perfect as also is the thumb, save that it is withered a little since it was taken from the ground. The fingers are also properly shaped, and fitted to each other even to the natural crook of the little finger. It is really a wonderful production.—Mr. Thorburn gave five dollars for it.

INTERNAL NAVIGATION.—The length of the Ohio Canal, recently completed, connecting Lake Erie with the Ohio River, is 310 miles.

## POSTSCRIPT.

### Editor's Correspondence.

*Raleigh, Monday Night, Nov.* 26.

The proceedings of the Legislature since I last wrote you, have hardly been of sufficient interest to keep a mere spectator from dozing at his post, if I except the election of Public Printer, which took place this day. It resulted, contrary I believe to general expectation, in the election of Mr. Ramsay, Editor of the Constitutionalist, and was, as you may suppose, effected by successfully arraying parties against each other—the friends of Mr. Van Buren having the ascendancy.

Thursday next is fixed on to ballot for Governor, Gen. Polk, of Salisbury and Governor Branch being in nomination. There will probably, be some other candidate from the Van Buren Party, and the issue is considered doubtful.

Resolutions have been introduced by Messrs. Martin and Leak, in the Senate, on the subject of Nullification and the Tariff and are made the Order of the day for Friday. The Resolutions denounce Nullification and deprecate the policy of a Southern Convention.

An attempt will be made, I suspect, to re-model the Congressional Districts, Resolutions having been submitted to enquire into the propriety of so doing.

J. L. Bailey has been elected Solicitor of the first Judicial Circuit, without opposition.

The Bill for re-building the Capitol has been introduced; as has also, a resolution, in relation to a Convention.
